

Level 5 means that I can...

- Multiply and divide whole numbers by 10, 100 and 1000
- Add, subtract and order negative numbers
- Add, subtract, multiply and divide numbers including decimals up to two decimal places
- Simplify a fraction
- Work out a fraction or percentage of a number
- Solve simple ratio and proportion problems
- Multiply or divide a three digit number by a two digit number
- Use inverse operations of approximation and estimating to check my answers
- Construct and use simple formulae like $C=2n+4$
- Use co-ordinates in all four quadrants
- Use brackets
- Calculate fractions and percentages of numbers

- Measure and draw angles to the nearest degree
- Describe angles in the correct terms
- Know sum of angles in a triangle and around a point
- Remember the metric to imperial conversions
- Convert one metric unit to another
- Estimate lengths
- Find symmetry in 2D shapes
- Use and understand the formula for the area of a rectangle

- Find the mean, mode, median and range of discrete data
- Use the range and one of the averages to compare two sets of data
- Interpret graphs and diagrams including pie charts
- Draw and use the probability scale from 0 to 1
- Understand that experiments don't always have the same outcome
- Find probability & understand equally likely outcomes
